Experience

Leveduca **Poços de Caldas, Brazil**

Mid-Level Software Developer *Feb 2024 - Present*

- Developed key product features (Gamification, OKRs, Feedback System) that added significant value and boosted sales.
- Optimized back-end processes, significantly reducing the execution time of critical tasks.
- Contributed to front-end development using Vue.js, implementing dynamic and responsive user interfaces.
- Managed integrations with external RESTful APIs and critical business systems, including CRM platforms.

Junior Software Developer *Jul 2023 - Jan 2024*

- Re-architected the company's internal administration system, significantly enhancing usability and efficiency for the team.
- Created back-end features using PHP and Laravel and contributed to front-end tasks with HTML, CSS, and Vue.js.

IT Assistant *Dec 2022 - Jun 2023*

- Reduced support ticket volume by proactively analyzing recurring incidents to identify and resolve root causes.
- Integrated external APIs with proprietary systems to automate processes and expand platform functionality.
